## Gigabit Outdoor 60W PoE Surge Protector

### Product Overview

PT-PR01G-OT is a single-port PoE surge protector designed for exterior applications with an IP 67 rated Aluminum alloy case. It supports 8 lines network signals and provides surge protection for PoE wires. The maximum common mode surge voltage is 10KV(10/700us) and max differential mode surge voltage is 6KV(10/700us). It supports 10/100/1000Mbps of data rates. It is ideal for PoE wires with IEEE802.3af/at/PoE++ standard and well protects your device against surge damage.

Designed for outdoor use, the PT-PR01G-OT operates from -40℃ to +65℃ in an IP67 enclosure and works with voltage of 44-57Vdc. Equip port should always be connected to device which you want it to be protected.

Both RJ45 ports connect to network over Cat5e/Cat6 cables which is very conveniently and tightly.

It can be easily installed with 2 mounting holes.
