

Description

Multi Netprotector 8p MN-8P-D protects connected device against electrical surcharges that may occur during storms. Protects both data and PoE pairs.

Multi Netprotector 8p MN-8P-D is equipped with all aluminium, sleek desktop case coated black.

Multi Netprotector 8p MN-8P-D passes through data and PoE 1:1, so it can be used between the device and PoE power source

Main features:

- protects up to 8 devices
- small, tough, all aluminium desktop case coated black
- all ports shielded
- 8x LAN 10/100Mbps
- 8x LAN & PoE 10/100Mbps

Note: MN-8P-D has to be grounded to work as intended!
